Professional Summary

Passionate Software Developer and aspiring Machine Learning Engineer with a strong interest in building modern, scalable, and user-friendly applications. Skilled in web development, problem-solving, and AI technologies. Eager to contribute to innovative projects while continuously learning new technologies.

Technical Skills

- Python
- HTML5
- CSS3
- Bootstrap 5
- JavaScript(ES6)
- React.js
- Node.js
- Express.js
- MongoDB
- Git & GitHub
- Machine Learning Fundamentals

Education

- Secondary School Certificate (Dakhil) – Science**
Jhalakathi N.S. Kamil Madrasa 2022 – 2023
Completed the Secondary School Certificate (Dakhil) in the Science group, building a strong foundation in Mathematics, Physics, Chemistry, and Information & Communication Technology. Developed analytical thinking, discipline, and problem-solving skills through academic studies and practical learning.
- Diploma in Computer Science & Technology**
Dhaka Polytechnic Institute 2025 – Present
Diploma in Computer Science and Technology has strengthened my knowledge of programming, software development, networking, and database systems. It has provided practical experience in modern technologies, problem-solving, and project development, preparing me for a successful career in software engineering and machine learning.

Experience

- Junior Software Developer (Intern)**
EMBER Industries 2026 – Present

Soft Skills

- Problem Solving
- Teamwork
- Communication
- Time Management
- Critical Thinking
- Leadership

Languages

- Bengali (Native)
- English
- Spanish

Certifications

- Web Development Bootcamp
- Google AI Essentials
- Git & GitHub Essentials
- SQL for Data Science
- Machine Learning Fundamentals
- JavaScript Essentials

Interests

- Artificial Intelligence
- Machine Learning
- Software Development
- Open Source Contribution
- Technology Research
